

VERTICAL CABLE DUCTS

USED WITH CHANNEL RACKS

Vertical Cable Ducting can be fitted to both front and rear of the Steel Channel Rack - providing excellent cable management for patching applications. Cable duct kits can be fitted with an added feature of buying them together, to create a suite of racks. All kits are fitted with plastic cable protectors, ensuring safe bend radius for cables. To assist with providing a neat cable management system, all ducts are fitted with hinged covers that locate with slam latches when closed.

VERTICAL CABLE DUCTS

RU	WIDTH	CODE

WITH REDUCER 2005 CABINETS

The Cable Duct Kits can be fitted down both sides of the 800mm wide S2005 Cabinet, or down one side of the 700mm wide S2005 Cabinet, while still maintaining 19" racking. The 100mm wide duct kit, can be fitted to both the front and rear of the cabinet. If cable ducts are used at the front of the cabinet only, a mounting angle reducer bracket kit can be used to ensure rear 19" mounting is maintained.
