

# S400 WALLMOUNT CABINETS

## FEATURES

- Venting on the Top & Bottom as standard
- Cable Entry Glands are provided at the top and bottom, these can be matched with Roof Cable Ducts  
Refer to “Cable Management” in the “Accessories” section
- Flush fitting Glass and Metal Doors
- Lift off hinges
- Swing frame can accommodate equipment 200mm deep on 600wide and 400mm deep on 700mm wide cabinet
- Key lockable door
- 19” Mounting angles are standard and fully adjustable throughout the depth on non Swing Frame versions
- Supplied fully assembled or can be flat packed upon request

## OPTIONS

- Swing frame for ready access to the rear of equipment
- Glass or Metal front door
- Left & Right hand door hinging
- Removable rear panel
- Roof fan trays can be fitted - refer to accessories section.

## FINISH

The Cabinet is made from galvaneal coated steel with a durable powder coat finish in customer choice of colours.

## SWING FRAME

The swing frame facilitates the mounting of equipment and cantilever trays with an unrestricted swivel. The frame is most useful when access is required to the rear of equipment. The mounting of the swing frame requires the usable rack area to be reduced by 3 rack units.

## 700MM SWING FRAME

These cabinets facilitate the mounting of equipment or cantilever trays in a 19” swing frame to accommodate modems, hubs, etc. The additional 100mm to the width of the unit allows unrestricted swivel for equipment or shelf up to 400mm deep. The mounting of the swing frame requires the usable rack area to be reduced by 3 rack units.
